

Medals & Trophy Proposal 2021 / 2022

Panathlon Challenge benefited 45,000 young people with disabilities and SEN last year through a mix of virtual and face to face events. We will In the year ahead 21/22 deliver hundreds of Mini-Paralympic type competitions across the country.

All children desperately need outlets to have physical activity and social interaction after lockdown and months of school closures and Panathlon is a proven way to provide that. Secondly, Panathlon is incredibly diverse across all sectors of society, involving all children regardless of disability, gender and ethnicity.

We are seeking a sponsor of our medals and trophies for this academic year. We estimate we require 25,000 medals and 1,000 trophies in the academic year 2021/22 as we expand nationwide to the whole of England, plus Wales and Northern Ireland.

Panathlon has many high profile [Paralympic athletes](#) as patrons and [attracts national](#) and [local media](#) attention.

Numerous P.R. opportunities throughout the year in many counties across the country. Branding available on all medals and trophies and promotion through social media and links to hundreds of schools throughout the country. If you recognise the benefit of rewarding thousands of young disabled people with medals and trophies, then please get in touch with ashley@panathlon.com

“Panathlon Challenge is a fantastic charity which provides thousands of disabled children across the country with sporting opportunities, which I wish I had when I was a child growing up. It’s great to see now so many people being introduced to sport, who thought it wasn’t an option for them”

Liz Johnson, Panathlon Ambassador and Paralympic Champion.

“Until the day Panathlon came to school, neither we as parents or the school realised what disabled children could do. Panathlon opened our eyes.” **Rebecca Lock, Mother to Honey**
